# SLING Days

## Industry incubator for NCCs and CoEs

3-5 December 2024

# SLING days 2024 - Industry incubator for NCCs and CoEs

This session will not focus on the usual "success story" format bout rather on a "collaboration example" format more in a workshop direction. Meaning working with a SME should be focused on:

- how you address (come in contact) with an SME
- difference between collaboration and subcontracting
- the involvement of your institution at different stages of a project - what is the expected obligation from each partner; where during a project your institution helps and what to expect
- chances for additional cofounding of a project?
- the gains for a SME
- usage of a HPC - how to get onboard, how your institution helps
- innovative approaches
